Summer Vacations Homework

Dear Parents,

As we all know that vacations are the time for recreation. In our busy schedule we hardly find any time to share our experiences with our loving ones. So, definitely summer vacations give us a chance to understand each other more precisely and accurately. We, the SMRians expect from all the parents that they will give a plenty of their precious time to their young dreams and help them realizing how lucky they are as they are able to spend their childhood with their caretakers keeping in mind that so many are there in this world who have not got this precious gift from GOD!

You already know that the summer vacations are being commenced from 27th of May (Monday) to 1st of July (Sunday) and the school will reopen on 2nd of July (Monday). As per the guidelines from CBSE and from the Education department, Haryana. It has been observed that in present era due to our living style our children are getting detached from our rich culture, natural resources, social and emotional values. So, here we are trying to give such holidays assignments to our students which are not based only on the bookish knowledge but have some sensibility towards the improvement in them for moral values also. These assignments will increase their practical knowledge and help them rejoining with nature and regaining what is required for overall development. Parents are expected to help their children in completing these assignments upto maximum of their caliber. This will help in building a healthy relationship between parents and children.

Best Regards,

Principal
